Mil ke Likhheza India...!

PRODUCT
CATALOGUE

INDIA

The Indian national flag colors (saffron, white, and green) are shown as a small horizontal bar below the word 'INDIA'.

Company Profile

STRT Pen Wings Private Limited, certified by the standards of **ISO 9001:2015**, had a humble start in the year 2014. Today, it is one of the leading manufacturers of writing instruments in India. Our registered head office is located in Kolkata. We manufacture pens and other stationery products under strict quality control within a highly evolved, state-of-the-art infrastructural facility at multiple manufacturing plants in West Bengal. These plants operate at full capacity, producing millions of pens every day.

Our factories are equipped with high-tech assembly machines, packing machines, multi-cavity moulds, and injection-moulding machines designed and fabricated in India, South Korea, Switzerland, Germany, China, and Spain to create your favourite pens.

We have established a robust and growing presence under the brand names **“WERITE,” “LKY9,”** and **“ENKY’S.”** Our consistent focus on precision and expansion has fueled our presence in the international market. We export our products both under our own brand and as an OEM supplier to various countries including Afghanistan, Pakistan, Indonesia, Nepal, Bhutan, and Bangladesh.

We believe in the power of words, and our **“Mil Ke Likhega India”** campaign inspires everyone to express themselves more on paper. This is not merely a core philosophy but an ethos that unites individuals globally. It is an idea with the power to shape the future. We encourage creative minds to bring their imaginations to life—because great things only happen when you pen them down.

All our products are crafted with quality in mind. It is this quest for quality that has brought us to where we are today. We ensure the highest standards for very product and maintain these standards to make your journey on paper the smoothest possible.
